

COF #4 The Mall (Vickers Count)

Your wife has convinced you to go to the mall against your better judgment. You have left her in the food court and went in search of the restroom. As you turn to go down the hallway (P1) you are confronted with two armed bad guys (T1 & T2). They have you put your hands in the air but are distracted momentarily (The buzzer) so you draw and engage both bad guys with 2 shots each as you move backwards back into the food court (Remember tactical priority). As you round the wall into the food court (P2) you see that there are 3 more bad guys (T3, T4 & T5) in the food court and they have taken a hostage. Engage each with 2 shots while moving to a concrete planter for cover (P3). Once there you see two more thugs (T6 & T7) across the room with another hostage. Engage each with 2 shots to save the hostages. (14 rounds minimum)
